Development: HTML, CSS, JavaScript, Python (Basics)

Professional: Problem Solving, Collaboration, Communication, Design Thinking

Professional Experience

Wipro Limited

Junior UX Designer

June 2024 – February 2026

Jaipur

- Designed user-centered interfaces for enterprise applications, including dashboards, forms, workflows, and navigation systems.
- Created wireframes, high-fidelity UI designs, interactive prototypes, and user flows to communicate design solutions before development.
- Simplified complex workflows by identifying usability issues, reducing unnecessary steps, and improving information hierarchy and action discoverability.
- Collaborated with developers, business teams, and stakeholders to translate requirements into practical and intuitive user experiences.
- Worked with established design systems and UI guidelines to maintain consistency, accessibility, and responsive behavior across applications.

Selected Projects

IRCTC Website Redesign

UX Case Study

- Redesigned the ticket booking experience after identifying major usability friction points through a usability audit.
- Created information architecture, user flows, journey maps, wireframes, and responsive high-fidelity interfaces for mobile and desktop.
- Improved navigation, call-to-action visibility, and interaction clarity through stronger visual hierarchy and micro-interactions.

Local Artisans Marketplace

UX/Product Design Project

- Designed a marketplace platform connecting local Indian artisans with buyers through a simple and accessible digital experience.
- Conducted user interviews and developed personas, user journeys, feature flows, wireframes, and responsive high-fidelity interfaces.

Gaming UI & UX Concepts

Personal Design Projects

- Designed game interfaces exploring HUD systems, menus, interaction patterns, visual hierarchy, and player-centered experiences across multiple game concepts.
